

Site Accessibility

www.online-yorkshire.com has been designed with accessibility in mind. We use clear texts and fonts (where possible) no smaller than size 10.

If you are having difficulty in reading the text on the site there are some useful features that you may already have built into your operating system:

- Magnifier: Will magnify the area of the screen where your mouse is hovering over thus enlarging the text and images displayed on screen.
- Narrator: Will read out text on the page you are on, which can be useful if you are still having difficulty reading any text.

If you find you are still having medically related difficulty operating or using a computer please see your doctor immediately, as they will be able to refer you to a optician, physician or other appropriate medical practitioner.

Please be aware this is only guidance and does not constitute legal advice.

If you have any suggestions on how we may improve the accessibility to our site please get in touch.
